

April showers

There's a whole in the boat
I just can't leave it
This air is so cold
I just can't breathe it

I'm a kid in the corner
While the world parties on
I'm too tired to stand up
Too scared to stay down

It feels it feels like an april shower
It feels it feels like an april shower
It feels it feels like an april shower
April showers in june

We walked on the road
You decided to leave it
For a castle with moat
You surely ceased it
