

Uphill run

Hey you
You've never been apart
From the ones from the ones you love
And you, you've never been afar
Anytime anyhow you are there

What I've got What I've got how it feels like
Everything you gave me ist great and it's alright
Lately life with you's an uphill run
What I've got What I've got how it feels like
Everything you gave me ist great and it's alright
Lately life with you's an uphill run
And tomorrow I'll still run

You
You've never been too late
You've been there you've been there to date
You
You've never been too late
Anytime, anyhow you are there!
